

Northamptonshire Health
Charitable Fund *supporting*
Northampton General Hospital
Northamptonshire Healthcare
Registered charity no: 1165702

Northamptonshire Health Charity has been set up to provide the added “extras” for Northampton General Hospital and Northamptonshire Community Hospitals, above and beyond that which the NHS can provide.

The charity helps enhance patient care in all departments, wards and services by providing the funding to; support staff development & training, buy the very best equipment and improve the hospitals environment.

The revenue received from the government pays for the basic services and infrastructure. If we want the latest cutting-edge equipment and treatments in our local hospitals, then fundraising and donations are one of the quickest ways to achieve this.

With thanks to donations and fundraising the charity has been able to provide those “extras” that really make a difference to the experience a patient has, from:

- ♥ buying activity boxes for wards to help engage dementia patients in activities which are therapeutic or mentally stimulating,
- ♥ supporting allotment therapy groups,
- ♥ purchasing Accuvein equipment to help make the search for veins easier,
- ♥ funding pull down beds for parents to stay with their children,

to:

- ♥ refurbishing and extending the Chemotherapy suite,
- ♥ relocating and enhancing the Emergency Assessment Bay on Talbot Butler Ward.

At some point Northampton General Hospital and the Community healthcare services will probably care for you, your family or your friends in Northamptonshire. You can choose to donate to the ward, department or service that has most touched your family. You can help make a difference! [Click Here to run for the Northamptonshire Health Charity](#)

Help us today to improve lives tomorrow!
